

# Town Refuse Disposal

**Summary:** The B.C.E.P. Solid Waste District has generated a policy regarding disposal of refuse at the request of any of the four towns at no charge. This policy waives charges against any town in the District upon the written approval of the town's Selectman representative to the District.

**Specific Guidelines:**

1. Material presented for disposal shall be town refuse removed from town property or rights of way. Refuse removed from private property shall not be disposed of under this policy.
2. Material shall be separated into categories as defined in the most current 'Separation Policy for Recycling' document. (Standard Operating Practices, Section 4.2)
3. The material shall be delivered to the District's facility.
4. The specific town's Selectman representative to the District must complete and sign the request at the bottom of this sheet before material will be accepted at no charge.
5. The person delivering the material must present the signed form at time of delivery.
6. The District may refuse to accept at no charge, any material not listed or un-separated.
7. Conditions of this policy can only be waived by majority vote of the District committee at a scheduled District Meeting.

## Description of Material

Approximate Quantity and Type of Material: ( *such as '6 tires', '4 yards of demo', etc.*)
